CIVIL TIMES

From the Desk of the Principal

ABDUL NASAR KAIPPANCHERY

Dear All,

As we embark on another edition of our newsletter, I am proud to reflect on the unwavering commitment of our department to combine social responsibility with technical excellence. In a world facing unprecedented challenges, it is essential that we not only strive for academic and professional success but also remain deeply rooted in our duty to serve society. Through our innovative projects, impactful initiatives, and community outreach programs, we have demonstrated our dedication to making a positive difference in the lives of others.

By marrying our technical competency with a strong sense of social commitment, we have the power to effect meaningful change and create a better, more equitable world for all.

Let us continue to uphold these values as we work towards shaping the future of civil engineering and beyond.

Warm regards...

From HOD's Cabin

NIASI K A

Head of Department
Department of Civil Engineering
Seethi Sahib Memorial Polytechnic College

I am thrilled to share with you the exciting news of our department's latest endeavor—the construction of a new house for a deserving family through our "Home for Homeless" project. In keeping with our department's commitment to social responsibility and community engagement, this project aims to provide shelter and stability to those in need while also giving our students valuable hands-on experience in construction practices. From designing the house to managing the construction process, our students will have the opportunity to apply their theoretical knowledge in a real-world setting and make a tangible impact on the lives of others.

This initiative exemplifies the transformative power of civil engineering to uplift communities and create lasting change. I commend everyone involved in this project for their dedication, compassion, and commitment to serving others.

Together, let us continue to harness the power of engineering to build a brighter, more inclusive future for all.

Warm regards...

Vision of Institution

To be an institution of excellence in developing technically competent and socially committed engineers.

Mission of Institution

- To impart quality education by fostering technology innovations for sustainable development.
- To develop professional as well as entrepreneurial culture by adopting technological changes.
- To inculcate team spirit and ethical values by engaging in social endeavours.

oooooooooooooooooooooooooooo

Vision of Department

To be a premier hub for moulding quality conscious and socially responsible Civil Engineers with diverse skills.

Mission of Institution

- To create an ambience for academic excellence to enrich the competency, credibility and integrity of the students.
- To encourage the students towards higher education and effective career so as to take up challenges in the field of civil engineering.
- To transform students into responsible professionals for betterment of society and sustainable development of nation.
