CIVIL TIMES

The new academic block under the consultancy of Civil Department is in final stage of construction.

From the Desk of the Principal

ABDUL NASAR KAIPPANCHERY

Dear All,

In the wake of the ongoing COVID-19 pandemic, our department has remained steadfast in our commitment to serving society and supporting those affected by this global crisis. Through various social relevant activities and initiatives, we have extended a helping hand to individuals and communities in need, providing assistance, resources, and relief wherever possible. Whether through organizing donation drives, offering educational support to students in underserved areas, or participating in community outreach programs, our department has demonstrated resilience, compassion, and solidarity in the face of adversity.

As we continue to navigate through these challenging times, let us remain united in our efforts to make a positive impact on the world around us.

Together, we can overcome any obstacle and emerge stronger, more compassionate, and more connected than ever before.

Warm regards...

From HOD's Cabin

NIASI K A

Head of Department
Department of Civil Engineering
Seethi Sahib Memorial Polytechnic College

Dear All,

Dear Students, Faculty, and Staff of the Department of Civil Engineering,

The COVID-19 pandemic has not only reshaped our daily lives but has also catalyzed a profound transformation in the way we interact, communicate, and conduct business. One of the notable byproducts of this global crisis has been the accelerated shift from offline to online life, as individuals and organizations alike have embraced digital technologies to adapt to the new normal.

From virtual classrooms and remote work environments to online meetings and digital collaboration tools, the pandemic has compelled us to rethink traditional paradigms and explore innovative ways of connecting and engaging with one another.

This edition of our newsletter provides an excellent opportunity to reflect on the implications of this digital revolution on our field of civil engineering. As we navigate through this era of unprecedented change, let us harness the power of technology to enhance our learning, broaden our horizons, and embrace new opportunities for growth and innovation.

Warm regards...

Vision of Institution

To be an institution of excellence in developing technically competent and socially committed engineers.

Mission of Institution

- To impart quality education by fostering technology innovations for sustainable development.
- To develop professional as well as entrepreneurial culture by adopting technological changes.
- To inculcate team spirit and ethical values by engaging in social endeavours.

Vision of Department

To be a premier hub for moulding quality conscious and socially responsible Civil Engineers with diverse skills.

Mission of Institution

- To create an ambience for academic excellence to enrich the competency, credibility and integrity of the students.
- To encourage the students towards higher education and effective career so as to take up challenges in the field of civil engineering.
- To transform students into responsible professionals for betterment of society and sustainable development of nation.
