## CIVIL TIMES

*Padma Shri Architect Dr. Shankar delivered the keynote address at the three-day civil fest organized by the Civil Engineering Association.*

### From the Desk of the Principal

**ABDUL NASAR KAIPPANCHERY**

Dear All,

I am delighted to extend a warm welcome to all of you to the inaugural edition of our departmental newsletter. This initiative marks a significant milestone in our journey towards fostering greater communication, collaboration, and camaraderie within our academic community. Newsletters serve as invaluable platforms for sharing knowledge, celebrating achievements, and staying informed about the latest developments in our field. As we embark on this endeavor, let us recognize the importance of effective communication in promoting unity and synergy among students, faculty, and staff.

I encourage everyone to actively contribute to the content of our newsletter, whether it be through sharing findings, project updates, or personal reflections. Together, let us make this newsletter a vibrant reflection of our department's excellence and dynamism.

I look forward to seeing the impact and success that this initiative will bring to our community.  
Warm regards...

### From HOD's Cabin

**M MUHAMED IQBAL**

Head of Department  
Department of Civil Engineering  
Seethi Sahib Memorial Polytechnic College

As we embark on a new year, it is imperative that we reflect on the challenges and opportunities that lie ahead, particularly in the context of our beloved state, Kerala. The devastating floods that have plagued our region in recent years serve as stark reminders of the importance of civil engineering in disaster mitigation and management.

The role of our profession in designing resilient infrastructure, implementing effective flood control measures, and ensuring the safety and well-being of our communities cannot be overstated. As we witness the ongoing impacts of climate change and environmental degradation, it is incumbent upon us, as civil engineers, to leverage our expertise and innovation to address these pressing issues head-on.

This newsletter provides us with an opportunity to showcase the valuable contributions that our department is making towards flood resilience and disaster preparedness in Kerala. Let us use this platform to share insights, best practices, and lessons learned, as we work towards building a more resilient and sustainable future for our state and its people.

Warm regards...

### Vision of Institution

To be an institution of excellence in developing technically competent and socially committed engineers.

### Mission of Institution

- To impart quality education by fostering technology innovations for sustainable development.
- To develop professional as well as entrepreneurial culture by adopting technological changes.
- To inculcate team spirit and ethical values by engaging in social endeavours.

oooooooooooooooooooooooooooo

### Vision of Department

To be a premier hub for moulding quality conscious and socially responsible Civil Engineers with diverse skills.

### Mission of Institution

- To create an ambience for academic excellence to enrich the competency, credibility and integrity of the students.
- To encourage the students towards higher education and effective career so as to take up challenges in the field of civil engineering.
- To transform students into responsible professionals for betterment of society and sustainable development of nation.
