## CIVIL TIMES

### From the Desk of the Principal

**ABDUL NASAR KAIPPANCHERY**

Dear All,

As we enter the fifth volume of our newsletter, I am excited to witness the continued growth and innovation within our department. In an era defined by rapid technological advancements and unprecedented challenges, it is essential that we harness the power of extreme technology to explore new frontiers and unlock the potential for goodness in the world.

From leveraging artificial intelligence and machine learning to optimize construction processes, to embracing sustainable and eco-friendly building materials, our department is at the forefront of innovation in civil engineering.

Let us embrace this spirit of exploration and innovation as we work towards creating a brighter, more sustainable future for generations to come. Together, let us strive to use technology for the greater good and leave a lasting impact on the world.

Warm regards...

### From HOD's Cabin

**NIASI K A**

Head of Department  
Department of Civil Engineering  
Seethi Sahib Memorial Polytechnic College

Dear All,

As we gather for the fifth volume of our newsletter, it is essential to reflect on the profound importance of engineering for sustainable development. In a world facing unprecedented environmental challenges, the role of civil engineering in promoting sustainability, resilience, and environmental stewardship has never been more critical.

Our department is committed to advancing sustainable practices in all aspects of civil engineering, from infrastructure design and construction to waste management and environmental conservation. Through innovative research, hands-on projects, and community engagement initiatives, we are working tirelessly to develop and implement solutions that minimize environmental impact and maximize societal benefit.

Let us continue to prioritize sustainability in our work and inspire future generations of civil engineers to do the same. Together, let us build a more sustainable and resilient world for all.

Warm regards...

*From Jagapoka Cultural Fest organized by Civil Engineering Association*

### Vision of Institution

To be an institution of excellence in developing technically competent and socially committed engineers.

### Mission of Institution

- To impart quality education by fostering technology innovations for sustainable development.
- To develop professional as well as entrepreneurial culture by adopting technological changes.
- To inculcate team spirit and ethical values by engaging in social endeavours.

### Vision of Department

To be a premier hub for moulding quality conscious and socially responsible Civil Engineers with diverse skills.

### Mission of Institution

- To create an ambience for academic excellence to enrich the competency, credibility and integrity of the students.
- To encourage the students towards higher education and effective career so as to take up challenges in the field of civil engineering.
- To transform students into responsible professionals for betterment of society and sustainable development of nation.
